Experience the integration of a VIVARI® washbasin. The unique look and feel of a solid surface washbasin guarantees many years of satisfaction. Benefit from the easy cleaning and care. Enjoy the feeling of uniqueness.

Every washbasin is handmade. With our wide range of colours, we will meet your design requirements.

Image: SLOT 2 Channel drain (basin width: 1200 mm)

In the beginning, there was the goal: to create an ambience as multifaceted as the spirit of our times.

The result: a product line for the bathroom that you can freely design according to your own desires and imagination. Dimensions are blown open and freedom made visible. With our VIVARI bathroom range, creativity knows no limits.

Once other materials reach their limits, VIVARI will find the right solution with a millimetric precision.

Washbasins & Washstands

Individual bathroom design by PFEIFFER – Your oasis of relaxation. The pleasure of purity and elegance. Choose your preferred style and enjoy it.

With our range of products we have the right concept for your bathroom. Choose between built-in washbasins, which can be seamlessly integrated into a solid surface vanity top or combine a sit-on bowl with other exclusive materials and a PFEIFFER cabinet for your personal items.

SLOT 3 Built-in channel drain,
with removable drain cover

VR-Series

Washbasins - Round

The VR-Series basins adapt to every installation. A PFEIFFER washstand looks as if it is almost "cast-in-one" and is the ideal solution for a high quality wet cell.

Shower trays made to measure

In the beginning, there was the goal: to create an ambience as multifaceted as the spirit of our times.

The result: a product line for the bathroom that you can freely design according to your own desires and imagination. Dimensions are blown open and freedom made visible. With AQUAMASTER range, creativity knows no limits.

Experience maximum freedom of movement with our XXL shower trays. Where other materials reach their limit, we can produce your customized solution. Seamless integrated components like benches or storage space complete our solution. This opens the way for unlimited shower delight.

The 12 mm thick solid surface material provides a uniform surface and is certified according to the international standard DIN ISO 846. Neither bacteria nor mildew can take root. Aesthetics and functionality complement one another seamlessly with AQUAMASTER.

AQUAMASTER XERO

Flexibility in any format

XERO gives you the option of implementing a variety of customized system solutions in addition to standard shapes – without having to restrict your planning freedom. Use the numerous options to realise shower trays up to 3000 mm length and 1200 mm width.

System Solutions

- Customization up to 3000 mm length and 1200 mm width
- Variety of colours
- Standard shapes (Square, rectangle, quadrant)
- Easily accessible
- Low installation depth (submounted or flushmounted)
- Easy to clean and maintain
- Circumferential vario joint sealing band (Option)
- Central or offset drain
- Various drain options
- Wall connection as coved backsplash or straight (Option)
- Integrated groove for glass partition wall (Option)
- Anti-slip coating for public areas is possible (Option)
- Drain capacity $\geq 0,64$ l/s (Depending on the selected drain)

Baths

Complete your exclusive ambience with a AQUAMASTER bath tub. The velvety feel and look guarantee a feel-good experience.

Our product range consists of two standard shapes ROUND and CUBE. You also have the opportunity to bring your own ideas in the design of your bath tub.

How about a XXL Shower-bath-tub-combination or a wellness tub with steps for entrance and enough storage space for wellness equipment?

● ROUND

Bath

ROUND is the best solution for individualists. Its convincing arguments are a striking image, excellent hygienic properties, central drain and an overflow cover in the same colour.

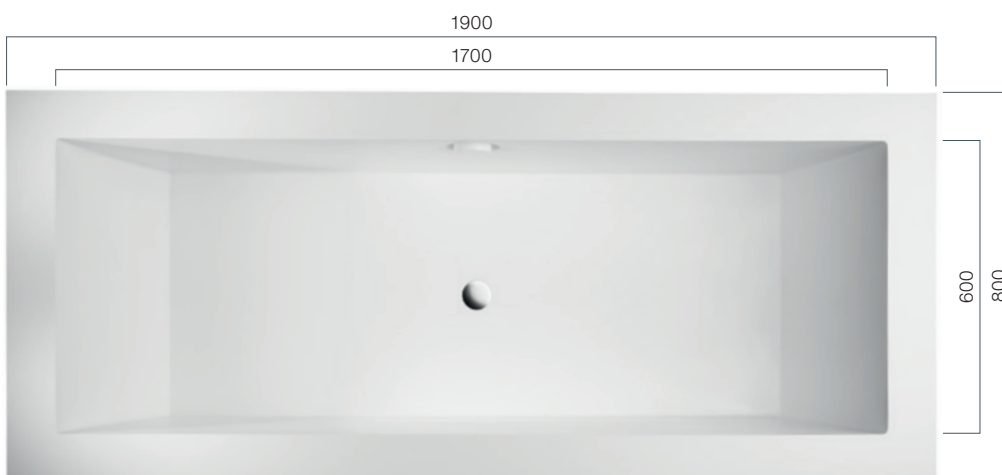

Depth: 493 mm | Hight: 650 mm

● CUBE
Bath

CUBE is the best solution for minimalists. Its convincing arguments are excellent hygienic properties, central drain and an overflow cover in the same colour.

Depth: 480 mm | Height: 650 mm
